Award; 2 Stars at Nationals

Howdy Area XI,

If you asked ten-year-old me anything about FFA, I would say, "What's that?" with a confused look on my face. Like many eager freshmen, I joined every club that was offered at my school. Throughout the school year, I fell in love with everything FFA had to offer.

I still remember sitting in the Fort Worth Convention Center, wondering what those people on the floor running around with pool noodles were doing. Like most curious freshmen, I asked my ag teacher and was told that those people weren't crazy, they were just area officers. At that moment, I knew I wanted to be the "crazy" person directing the wave with pool noodles. I was also told that getting there would not be easy, but my goals are becoming a reality, and just getting the opportunity to run for Area XI officer is a step toward fulfilling my goal.

I hope to be the next "crazy" person with the pool noodles at the next state convention. I know that I can influence others as your next Area XI President, just as past area officers influenced me.

Thank you,

Emma McAnally
